Bid Online! **DVAuction**

Welcome!

On behalf of Ruble Cattle Services and the Missouri Simmental Association, we would like to welcome you to this year's fall sale. We have an excellent set of Simmental and SimAngus cattle in the offering that will promote Simmentals in Missouri. We have worked hard over the last year to bring as many Missouri Simmental members into this sale as possible. Our visits to the Missouri Simmental breeders and the Simmental Breeders Sweepstakes have paid big dividends. We think this year's offering will be the best quality from top to bottom ever offered in the history of the fall sale. Every category in the sale is loaded up with quality. Our customers and the buyers have been more than satisfied with the cattle and genetics they purchased last year. We know you have a choice of many sales but this one will have something for everyone. We have focused on bringing you cattle that will pay dividends right away with many cow-calf pairs and top-notch bred heifers. Many of the bulls are older and come to the sale ready to service many cows and heifers. Missouri is a great cattle state, and we welcome all the support and the increased involvement from the MSA board members and sale committee. Barry Holst and the sale committee went above and beyond in helping recruit and plan for a successful sale. The Missouri Fall Harvest Sale has truly become a gateway to helping market Missouri members' cattle and genetics throughout the year. Come to the sale this year or give us a call, I promise you will be glad you did. Thank you to the MSA Board and the sale committee for allowing us to represent such a high-quality set of cattle and genetics! We will have fast affordable trucking. We will be following the local health guidelines. Please call us with any questions.

MISSOURI SIMMENTAL ASSOCIATION MEETING

Meal, Consignor Meeting & Missouri Simmental Assoc. Board Meeting
Friday, November 4, 2022 | 6:00 PM | Springfield Livestock Marketing Center

SALE LOCATION

Springfield Livestock Marketing Center417-869-9500
6821 W Independence Dr. Springfield, MO 65802
Exit 70, off Interstate 44 a few miles west of Springfield, MO.

COMPLIMENTARY DINNER SERVED AT 11:30 AM

Saturday, November 5, 2022 | 11:30 am - Free dinner, compliments of the Missouri Simmental Association

INSPECTION OF CATTLE

Sale cattle will be available for viewing after 5:00 p.m. on Friday, November 4th and again prior to the sale on Saturday, November 5th.

LIABILITY

All persons who attend the sale do so at their own risk and neither the sellers, Ruble Cattle Services, Missouri Simmental Association, or the Springfield Livestock Marketing Center assumes any responsibility, legal or otherwise, for damages, accidents, theft, errors in the catalog or omissions. All cattle are at the purchaser's risk as soon as sold. Assistance will be offered in loading and/or shipment of cattle, but no risk is assumed by any group of individual associated with the sale.

BIDDING

Bidding will be done by pre-assigned bidder numbers. Please register before placing your bid to obtain your bidding number and confirm all contact information. Phone and absentee bids are welcomed and will be strictly confidential.

SALE UPDATES

We have made every attempt to supply the most current and accurate information available on the cattle being offered. Any updated or additional information made available at the sale will take precedence over previously printed material.

TOTAL HERD ENROLLMENT

Total Herd Enrollment is a voluntary program offered to active members of the American Simmental Association. Consignors who participate in THE should have paid enrollment fees through Fall 2022 for either the TR or SR enrollment option, and actively enrolled females will be transferred as such.

TERMS OF SALE

All cattle will sell under the suggested sale terms and conditions of the American Simmental Association, available at the clerk's desk on sale day. Cash or check is required before or immediately following the sale before cattle are released for load out. Registration certificates will not be transferred until any outstanding balance is paid in full. Ownership will be transferred at the seller's expense. Buyers must provide proper name and address for transfer.

EPDs

The EPDs printed in this catalog were current as of 9/27/2022 and were the latest available from ASA at the time of printing. Due to the timing of the sale and other factors beyond our control, EPDs may change before certificates are reissued to buyers. Visit simmental.org to view the most current EPDs available, EPD percentile tables, or complete production records.

AMERICA'S COW

The **Simmental** cow can handle any environment.

She's built to last in heat, fescue or high altitudes. And thanks to the breed's built-in adaptability, you can match Simmental genetics to your environment – **SimAngus**, **SimAngus HT**, **Simbrah** or proven Simmental genetics.

Meet America's all-purpose cow – gentle and consistent, with calves that give the heterosis boost commercial cattlemen need to stay profitable.

Thank you to our Feature Consignors

who each brought a significant number of cattle this year!

BUEKER FARMS

Bueker Farms is a mother-son operation located in central Missouri. Historically an Angus-based commercial cow/calf operation, with the addition of some bred, baldy heifers in 2015 and the ensuing arrival of the baldy babies, we charted a new course. In 2017 we dipped our toe in the Simmental pool and there has been no turning back.

Our offering is representative of the type and kind of cattle we strive to produce, good-natured with the functionality and usability to perform in any environment. If you have any questions or would like to come by the farm and view the cattle prior to sale day, please call Kevin 573-298-0351.

Selling Lots: 23, 36, 68, 69, 70, 71, 74, 77, 81, 82, 93, 94

THREE CEDARS FARMS

Three Cedars Farms is located near Sedalia MO. We, Joe & JaNelle and our 4 boys, Jensen, Jackson, Jordan & Jasper, run about 50-60 Sim/SimAngus females with both spring & fall calving. We utilize Artificial Insemination and Embryo Transfer, trying to select cattle that can birth, breed back & wean heavy calves with as little assistance as possible. We also select for good carcass traits, trying to make our cattle balanced across the board. LRS Ms Dakota "559R", the dam of the bull LRS Turning Point is a major influence in our herd with multiple daughters & granddaughters working for us. We also have a bit of Tim Erickson's "Erica" cow in the herd and some RA Angus from Illinois.

We have an annual Open House the first weekend in October in Versailles, MO at our cooperator's farm. We promote our bulls and some commercial females - Everyone is welcome!

Selling Lots: 37, 38, 40, 52, 60, 61, 66, 67, 73, 76, 78, 80

FAITH CATTLE COMPANY

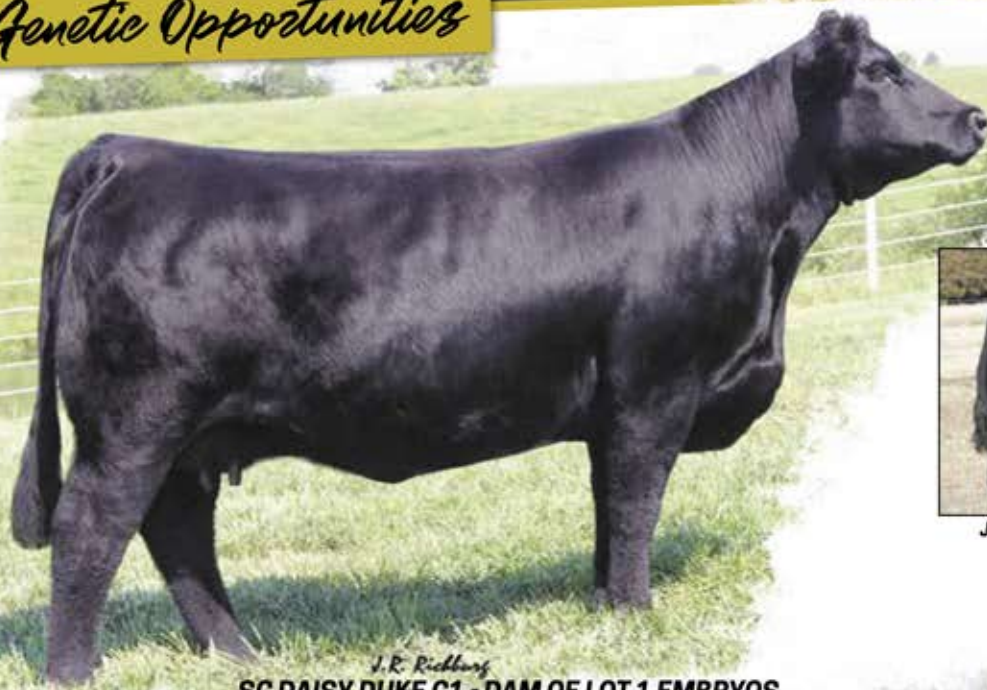

We are thankful and blessed that God has given us the opportunity to be caretakers of His land and livestock. Amanda and I married in 2010, and Ally Jo came along in 2013. We have been utilizing Artificial Insemination and Embryo Transfer to propel the genetic progress of our herd to raise sound, attractive, fescue functional cattle. We utilize bulls we have raised in our commercial cattle herd to elevate feeder cattle performance. By doing so, this helps us make genetic adjustments as we identify ways we can improve or maximize our customer's success. We also send bulls to Green Springs Bull Test, which uses Grow Safe bunk technology to identify performance markers that are becoming more important in our industry today. We strive to raise the best Simmental, Sim-Angus, and commercial cattle we can in the great state of Missouri.

Thank you all and God Bless! - Luke, Amanda, & Ally Jo Kagarice

Selling 3 IVF, reverse sorted female, conventional semen embryos. Guaranteeing 1 pregnancy if implanted by a certified embryologist. Embryos available sale day. What an opportunity to purchase Reverse Sort Female IVF embryos out of the late S.A.M., who is leaving his mark on the high sellers list and show ring, and SC Daisy Duke C1. C1 is an elegant Pays to Believe daughter who is making a lasting impact at Shoal Creek with her progeny from multiple sire groups, but the S.A.M. mating is one of the best to come along. A full sister to these embryos brought \$6,500 in the 2022 gathering sale to Rocking H Simmentals in MN. We also retained multiple fancy S.A.M. daughters in the fall calving herd to breed this fall and can't wait to get these girls in production. The marketing is done in the pedigree with the desirable sire and proven donor, feel free to look around the country these cattle are ELITE.

Selling 3 IVF, reverse sorted female, conventional semen embryos. Guaranteeing 1 pregnancy if implanted by a certified embryologist. Embryos available sale day. Two time Louisville champion, STF Onyx 451W needs no introduction. This cow has single handedly influenced many programs throughout the country and has proven herself time and time again. She still stamps her progeny with style, consistency and power at 13 years old! This exact mating has created a number of females that can proudly hang purple banners as well as put in their work out to pasture as productive females. STF Bianca is a great example, being 5th overall at the National Junior Classic, Champion at the historic Iowa State Fair and Reserve Champion at the American Royal to name a few. Quality and consistency is the trademark of Onyx genetics and it doesn't get much better than this mating right here. Her impact is unmatched and this is an opportunity to add one of the best cow families in the breed to your program.

Many of you know Trendy from the great program that Silver Towne Farms and the impact they have on the Simmental breed today. Her dam STF Onyx needs no introduction and Trendy has the same powerful look and longevity as her famous dam. She is extremely big ribbed and well designed from every angle. If you're looking to add quality and power back into your herd, she is proven and ready to go to work for your program. She is truly impressive to look at and about as fertile as they come.

Selling 3 conventional embryos. Guaranteeing 1 pregnancy if implanted by a certified embryologist. Embryos available sale day.

BC/C Miss Granite J196 is quite the female. Her great phenotype and tremendous structure sets her apart in person and her EPD profile reads even better with 8 traits in the top 1% and 10 in the top 3%. I matched her with KBHR Sweetness using RightMate. His profile and sound structure complements her in every way. The expected progeny will be top 1% API and TI. J196 is very fertile making 27 embryos as an open heifer. Let this embryo package bring a new herd sire or donor female to your farm.

Selling 3 conventional embryos. Guaranteeing 1 pregnancy if implanted by a certified embryologist. Embryos available sale day.

I purchased 74J from Triangle J Ranch with full expectations of using her as a donor. She fits that mold well. An unmatched structure on her feet and legs, and wide stout feminine body. Her EPD profile is as good too with 8 traits in the top 5% and 12 in the top 20%. I used RightMate on picking out a sire for the flush. She matched up with KBHR Honor for good reason. The expected progeny will be sound footed and big framed while still having a top 2% API and TI. This flush is one of a kind.

Selling pick of our red yearling heifers!

Slayton Farms is selling "Choice" of the 13 fall 2021 replacement heifers. We have "never" sold a single replacement heifer, so this is a first for us. Slayton Farms started as a Red Angus operation 30+ years ago. We then wanted to add hybrid vigor, so we added Simmental genetics and now register everything with the American Simmental Association. We specialize in RED and only used a hetero black AI bull a year ago for some specific traits. Our blood lines include the following: Allied Genetics Resources, Wilkinson, Keller Broken Heart Ranch, Hanson, Red Hill and Gateway. Our entire herd has Genomic Enhanced EPD's. We are an original member of New Day Genetics LLC and sell our bulls in the Spring sale. They are feed efficiency tested and sold at 18-20 months.

The heifers are all located at our farm in West Plains, MO. They have been pelvic measured, tract scored, wormed and vaccinated on October 7th. They are set up on a 14-day CIDR protocol. Their scheduled AI date is November 9th at 9AM. If you win the bid please contact me immediately, so we can decide whether to breed your heifer or not on that day and if so, what semen you would like us to use.

The heifers have all been "RightChoice" scored by Top Genomics LLC. The "RightMate" scores are pending as this is written. Six of the heifers are AI sired from non-owned bulls, six are naturally sired by a Slayton Farms owned AI bull that was marketed by Allied Genetics Resources, and one is sired by an owned herd sire. This is a unique heifer offering of SimAngus genetics that includes 1 hetero black and 1 Simbrah HT that has 8 EPD's in top 5%.

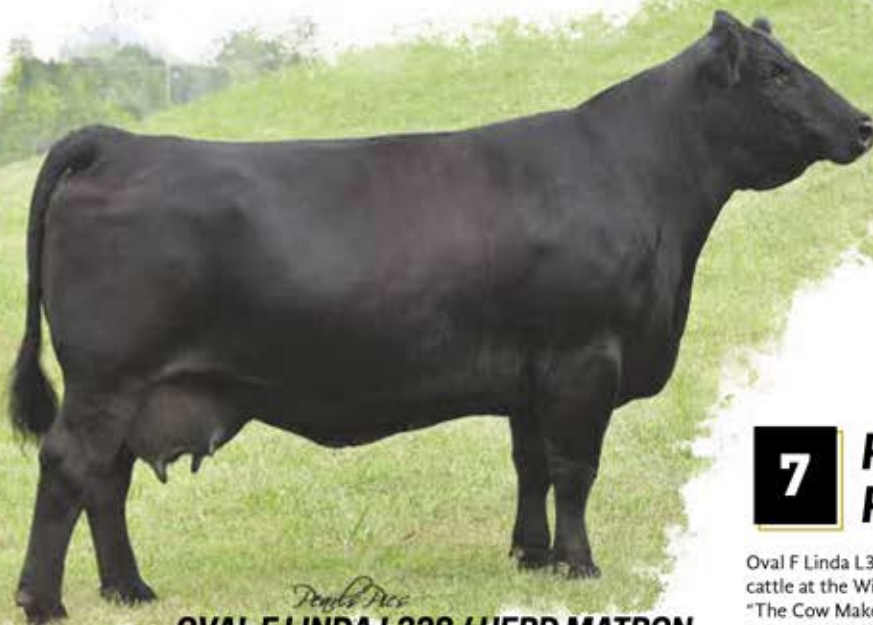

Photo: DCS
OVAL F LINDA L320 / HERD MATRON

Selling pick of the Oval F Ranch Bred Heifers

This is an opportunity to pick out of our best genetics with many generations of top AI sires. These heifers are AI bred to industry leading sires that we are confident will make profitable cattle. At the Oval F Ranch in northwest Missouri, we believe in sound, productive, big bodied cows that can have a calf and raise it. We use EPDs to help improve all economical traits and appreciate productive females with eye appeal. We recognize change is the future and try to embrace and utilize all the most current tools available in making our genetic decisions. Oval F has been raising Simmental cattle for over 50 years. Identifying prominent cow families that excel in our environment has enabled much of our success. Our

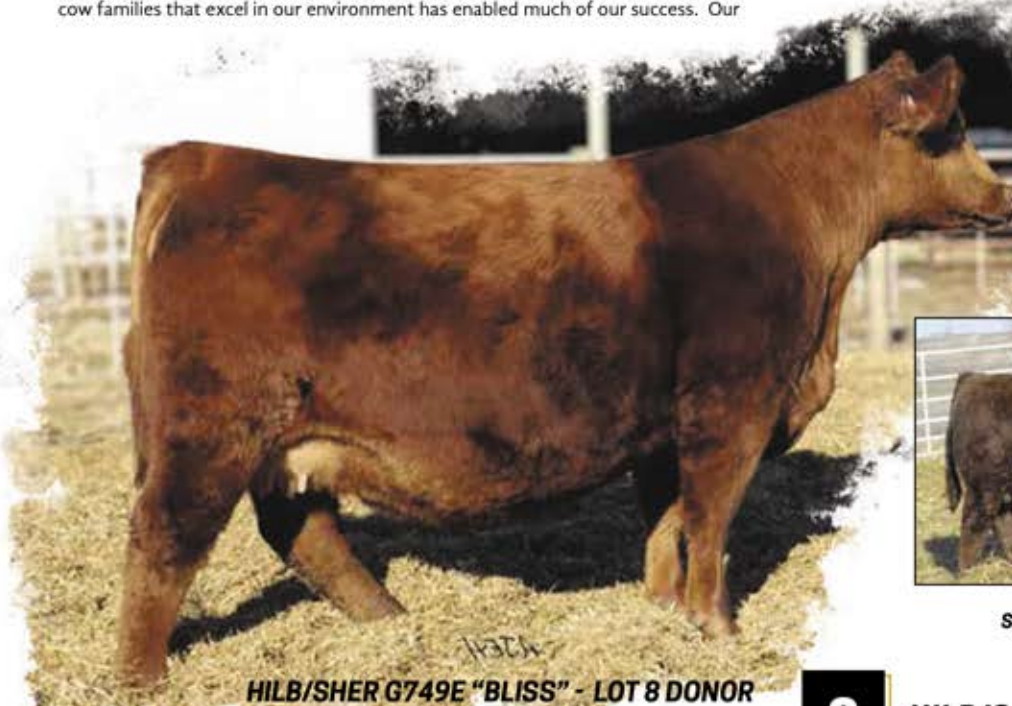

OVAL F ECHO

CONSIGNOR: OVAL F RANCH

7 PICK OF OVAL F PUREBRED BRED HEIFERS

Oval F Linda L320 cow is a story in herself and has produced many popular sale cattle at the Wild Wild West and other national sales. We believe in the ASA slogan "The Cow Makes the Difference." We have been successful in the bull department as breeders of Oval F Ringleader, Oval F Cool Dude, Oval F All Time (at ABS) and most recently Oval F Echo (at Ruby Cattle Co). Our bulls are marketed through private treaty. Some will find their home states away but we are proud of the repeat business from commercial cattlemen in our area. We are located in fescue country in the rolling hills north of Kansas City. Our cattle are handled much like our neighbors commercial cattle. We do not creep feed and what you see is what you get.

This is an exceptional set of bred heifers to choose from, we are happy to discuss and show them to you. Just give Matt a call 816-383-0630. We would like the pick to be made by 11/20/22. Due to calve 2/1/2023.

HILB/SHER G749E "BLISS" - LOT 8 DONOR

Embryo pregnancy by KBHR Sniper E036 (ASA# 3312030) due 4/18/23.

Lot 8 Recip: NB Miss United Ovation 77F / ASA# 3601015 / 1/2 SM 1/2 AN PE to WHF Innovator F315 (ASA# 3455447) from 7/19/22 to 9/7/22. Safe to embryo transfer date.

Lot 8A: Heifer Calf, BBARH Kimmer K77 / ASA#: 4042534 / DOB: 4/30/22 Tattoo: K77 / Adj. BW: 92# / Sired by WHF Innovator F315 (ASA#: 3455447)

This is a unique 3-for-1 opportunity - registered 1/2 blood, baldy cow and her 3/4 blood, baldy heifer calf, plus she is pregnant with a non-sexed embryo! The embryo mating is KBHR Sniper E036 x HILB/SHER G749E "Bliss." Both parents are red, so a red calf is likely! She preg tested to her embryo implant date, but our vet was not willing to call the sex of the calf. "Bliss" sold for half interest to Shoal Creek at Hildebrand's Passion For Perfection sale in April of 2021 for \$20,000 (\$40,000 valuation). Sniper was the high selling bull at Keller's sale in 2018.

Selling 10 units, conventional semen. Available sale day or stored at Nichols Cryo Genetics. Rogue is the most unique Sim Angus bull to come on to the sim scene in 2022. He's a perfectly marked baldy with an unheard of EPD profile. From a phenotype standpoint his perfect coloring is matched with flawless structure and a huge rib cage. Rogue floats when he moves and still has a ton of presence and these facts are backed with video evidence! Rogue offers the figures and build of his ever popular sire Hook's Eagle 6E in a much more attractive baldy package. If you call ahead we will have semen available to be picked up at the state sale or if its more convenient you can have it shipped to your door step from Nichols Cryo Genetics.

This is Ally Jo's first ever entry into the MO State Simmental Sale. She is very proud of this heifer, as she very well should be. Smooth as silk as she moves, and is a very complete heifer as you study her from front to back. This heifer has a bright future in the show ring and more importantly in the pasture. With a pedigree like this one, you can bet on her just getting better as she enters into her years of production.

Reba 029K - make sure you study her pedigree - Cow families are deep on both sides! Heartland Cattle Co has built an excellent herd around Penelope and Laci 512C - many champions have been produced by these cow families! Don't fall asleep on this one - the proof is in the pedigree.

PE to KLER Mr Game On 089H (ASA# 3813143) from 12/25/21 to 2/27/22.
Confirmed safe by blood test.

Franchise made really nice females at WWS. Gail is a great example. She has cow written all over her! Out of a strong producing dam that traces back to HS Stop And Stare U118L, she is solid black, big bellied, with good extension and top. Moves well. Halter broke. Our first Game On calves are on the ground. They are long spined and have grown well. I'm excited to see what Gail produces out of him.

PE to KLER Mr Game On 089H (ASA# 3813143) from 12/25/21 to 2/27/20.

Confirmed safe by blood test.

Another great solid black Franchise female. Adel's dam is MS Steelin Adel. MS Steelin Adel is a former AJSA bred and owned Grand Champion and is an OBCC Black Cap 15NX daughter. The "Black Cap" cow produced many top selling females for Owen Brothers. This is a cow family you can trust! We liked this cow family so much that we purchased a red "Black Cap" heifer that's now in our donor pen. Adel is a big-bodied girl with good feet and legs. Lots of eye appear, length, rib, and top. Halter broke. Her Game On calf should be exciting. Unlimited future for this girl!

AI'd to LLSF Vantage Point F398 (ASA# 3492381) on 5/24/22. Safe to AI date. Here is a ET bred heifer out of our pick from the Hudson Pines Sale in 2016; HPF Knockout Y030 and sired by CDI Innovator. This is a mating we love and are retaining multiple full sisters in the herd. 236J is a long, big bodied female with power and style. She also gives a EPD profile of Top 20% for WW and 25% for YW along with her phenotype she is will be a bull producing momma.

AI'd to KBHR Sriracha H127 (ASA# 3789514) on 5/24/22. Safe to AI date. A striking red baldy purebred female, the natural calf from our exciting young E44G donor from Hilbrand's Cattle in MN and sired by the ever popular Fort Knox. This mating has us excited with a full sister in the barn and many more on the way. We decided to offer this elegant big bodied female to this sale. She is bred to KBHB Sriracha H127 for a potential red calf. With the way red genetics are increasing in popularity, get on the ground floor and enjoy the ride.

AI'd to FSSR Chief Executive Officer (ASA# 3905201) on 2/19/22. PE to FSSR Chief Executive Order (ASA# 3905201) from 3/1/22 to 3/15/22. Safe to AI date. Willow is a larger framed 3 year old cow, and because we still have her dam and several sisters in the herd, we are letting her go. We bred her to CEO, an Executive Order x PRS Spring Velvet embryo bull we raised and kept back to use his genetics. We have several of the Spring Velvet females working in our herd, and each one of them are super stars. CEO is the only herd bull we have ever used extensively (we bred 20 plus cows to him), he is that good! This mating should produce a white faced calf, and bull or heifer it should be good! She is due 12/1, so your return on your money will not take long! Our first CEO calves should start hitting the ground before the sale, so ask us what we think of them!

AI'd to Fully Loaded (ASA# 3131823) on 1/25/22. Safe to AI date.

Leilani is a really nice 3 year old with a picture perfect udder and teat placement. She raised a really nice SC Pay Back bull calf for us this year, who is being marketed as a breeding bull, so don't judge her based on her condition! Her dam is still going strong in our herd, and hails from the Ebony Antoinette family. We purchased her as an embryo, and at almost 10 years old she is a top cow in our herd. We mated Leilani to Select Sires bull DMCC Fully Loaded, who has produced numerous phenomenal calves for us, and many high dollar calves in the industry. Even better, she is due the day after the sale, so she might come with her ticket on her! Grab this young cow, and you won't regret it! She has a bright future in front of her.

Sells open and ready to breed

I was once told by a great cattleman (my uncle) that you should always buy based on the "cow" family. You can't go wrong with this one. She's a full sister to B-Bar-H Fort Apache who was the high selling bull at last year's Fall Harvest Sale. Just ask Perry Wolff if he's pleased with his purchase. Her fancy bull calf at side is out of our CDI Innovator son. By the way, she's halter broke too.

Sells open and ready to breed.

Looking for a really nice baldie female? Check this one out. Bella is a granddaughter of Denver champion Hook's Bella B72. Her dam by W/C Loaded Up 1119Y was just coming into her own and headed to our donor pen at her untimely death. We were heartbroken. Fortunately, we had Bella and her younger Oracle sister. Both females express the traits we loved in mom. Bella has everything you want in a first-calf heifer. She's a super mom with a great utter. Good disposition, length, rib, and top. Bella will be a top performer in any herd.

This guy & his mother we purchased last year as the high selling cow calf pair in the 2021 MO State Simmental Sale. Study his numbers, and you will appreciate them, as he is in the top 10% for API & TI. If you're looking for something to use on heifers, 109J is top 15% for CE. A very sound, good footed herd bull in a very attractive moderate package.
